

Clear the floor & under beds

Ensure loose items such as toys, clothing and personal items are removed from the floor.

Allow access to skirting areas

Move stored items away from the walls and skirting boards as much as possible.

Clear food preparation areas

Ensure all food preparation areas are tidied with dishes/food items stored away & wipe food preparation areas before use as precaution.

Remove clothing from clothes lines

Any laundering should be removed from external clothes lines.

Mop & Vacuum prior to treatment

We recommend to mop & vacuum prior and to hold off mopping again for 48hrs after the treatment.

Minimise exposure to any pesticide

Doors and windows should be shut at the time of the external treatment and keep occupants and pets away from treated areas until visually dry.

Precautions for pets

If you have pets, please refer the pre-treatment advice email sent with your booking confirmation.
